Hi Shereen – I'm checking with HQ to see if the Spanish Translation services would be available for this meeting. Otherwise we would need to do a PR for cart services to add the operator assist line. The current rate was \$0.21 per min, but I'm confirming if this rate was reduced to \$0.07/min as well.

Do you have time tomorrow morning for a quick discussion?

Thanks,

Stephanie

I can help you figure this out this morning. The only issue may be that compass is down and we may need to factor that into decision making.

I've included Stephanie on this and she'll hopefully be able to find some answers for you.

Hi guys,

Just got this message from Shereen that threw me in a bit of a loop. I'm not familiar with a NA-ACS account number and not sure who to reach out regarding that. Any ideas?

Hey Jas,

Thanks for chatting earlier. So, to sum up our conversation, On Aug 5, we will host a virtual public meeting for Riverside Park via skype. We have a skype link and its associated conference line already set up. For this meeting, however, we will need Spanish interpreters to participate in the meeting. I've secured an interpreter but was told I must request an Operator Assist conference line specific for Spanish speakers. This line will allow the interpreter and anyone needing interpretation to call in to hear the presentation via the interpreter and ask questions/provide comments via the interpreter. To set up this line, I had to fill out the attached form, but Clive Ormsby called and said I needed to work with the Working Capital Fund Manager and to find the NA-ACS account number.

Will this cost us the same as a reservationless plus number? How do I find the NA-ACS number? Is this our only option in acquiring a conference line for interpretation that we can link to a Skype meeting?

Thanks for your help.

Hi everyone-

Yes, OLEM used the EPA Operator Assist contract for their national meeting in May. The EPA Operator Assist conference line is handled under a separate contract, unrelated to the language contract. You will need to contact Clive Ormsby (Ormsby, Clive <ormsby.clive@epa.gov>) to set up the conference line. In regards to the interpreter, please fill out the interpretation form attached.

I also want to give you the heads up that we are running low on funding, so please submit the attached request form and submit to the language inbox, as soon as everything is confirmed.

I am in today until 4:30 if you need any clarification. Feel free to give me a call.
